Application	Email	Consultant
Adobe Presenter	tlc@uthsc.edu	Keedra Smith 901.448.1518
Adobe Presenter is a rich media and e-learning authoring tool that enables anyone to create professional, high-quality, on demand presentations within Microsoft PowerPoint.		
Blackboard	bb@uthsc.edu	Bryan Berretta 901.448.3839
Blackboard is our online learning management system (LMS). Bb provides a system for content delivery, assessment, engagement, and improving the student experience for online, hybrid, and traditional courses.		
Camtasia Relay	tlc@uthsc.edu	Samba Diop 901.448.2312
Camtasia Relay is a screen recording application that makes it easy to capture audio, on-screen activity, and keyboard/mouse input.		
CORE	core@uthsc.edu	Samba Diop 901.448.2312
The Curriculum Outcomes and Reporting Engine (CORE) is the curriculum mapping tool currently used by the College of Medicine. CORE is commercially known as LCMS+, a curriculum management system for healthcare education.		
ExamSoft	tlc@uthsc.edu	Keedra Smith 901.448.1518
ExamSoft is our official computerized testing software, used by a majority of our colleges to prepare, deliver, and analyze high-stakes exams.		
Faculty Portfolio	tlc@uthsc.edu	Samba Diop 901.448.2312
Your Faculty Portfolio is a centralized, personal website for you to record your professional activities. You control the level of access to the information you place in your Faculty Portfolio.		
Mathematica	tlc@uthsc.edu	Bryan Berretta 901.448.3839
Mathematica is the world's most powerful global computing environment. It makes possible a new level of automation in algorithmic computation, interactive manipulation, and dynamic presentation - as well as a whole new way of interacting with the world of data.		
one45	one45@uthsc.edu	Samba Diop 901.448.2312
one45 is a web-based health sciences curriculum information management system used to manage electronic portfolios, curriculum mapping and objectives, manage and search curriculum database, and more.

ParScore	tlc@uthsc.edu	Bryan Berretta 901.448.3839
----------	---------------	--------------------------------

ParScore is an electronic ScanTron scoring application that allows instructors to grade and record students paper-based exam results. This system takes the manual work out of scoring tests, transfers scores to an online grade book, and prepares reports.

ProctorU	tlc@uthsc.edu	Samba Diop 901.448.2312
----------	---------------	----------------------------

ProctorU is a live online proctoring service for test takers taking exams online. The proctors use a three-step process to replicate the face-to-face proctoring experience. ProctorU service connects the test taker with a real person they can see and hear.

Qualtrics	tlc@uthsc.edu	Bryan Berretta 901.448.3839
-----------	---------------	--------------------------------

Qualtrics is a user-friendly survey service permitting the creation of a survey or form, various methods of distribution of the survey or form, reporting (both text and visual), data storage and analysis. The projects are accessible and can be completed from a computer or mobile device using a browser.

Respondus Suite	bb@uthsc.edu	Bryan Berretta 901.448.3839
-----------------	--------------	--------------------------------

The Respondus Campus Wide is a Windows-only application that enhances the functionality and usability of the Blackboard exam and survey tools. It is a tool used for creating and managing exams, quizzes, and surveys that can be published directly into Blackboard.

Respondus Lockdown Browser is a custom Internet browser utilized for Blackboard tests that locks down the testing environment, preventing students from printing, copying, going to another URL, or accessing other applications during the assessment.

Study Mate helps students master course material through learning activities, self-assessments, and games. A dozen activities, such as flash cards, crosswords and quizzes, engage students with course content in an individualized way.

Turning Technologies	tlc@uthsc.edu	Keedra Smith 901.448.1518
----------------------	---------------	------------------------------

TurningPoint Cloud is our audience response system, which offers an interactive classroom activity facilitated through Microsoft PowerPoint. Response types include polling, self-paced tests, evaluations, and surveys. Instructors can instantly view results and analyze data via their Turning accounts.

UTHSC TV	tv@uthsc.edu	Samba Diop 901.448.2312
----------	--------------	----------------------------

UTHSC TV is a streaming media service that allows users to upload, and share on-demand video content where ever the video link is provided.

Zoom	tlc@uthsc.edu	Bryan Berretta 901.448.3839
------	---------------	--------------------------------

Zoom is a web-based conferencing site that allows for users to have high-quality interaction in real time for their computers or mobile devices. The recording feature allows for future reference or to be able to send it to those unable to access/attend the conference.
